fyi,

Eric,

Are you getting information about the Las Conchas Fire in NM from sources outside EPA?

Lynn Beasley, Watch Officer
U.S. Environmental Protection Agency
Headquarters Emergency Operations Center
1200 Pennsylvania Ave
Washington, DC 20004
202-564-3850 202-564-8729 (fax)

Lynn:

Please make sure that Region 6 is getting the same information we are getting from sources outside of EPA. I understand that Eric Delgado is the R6 Phone Duty Officer at this time and the person keeping the awareness on this situation.

Thanks,

Gilberto "Tito" Irizarry

Subject: DOE has activated NARAC for the Las Conchas Fire in NM

NARAC is currently supporting DOE in response to the Las Conchas Fire in NM.

DOE has requested that NARAC be prepared for the potential for radiological releases if the fire were to create an airborne release from LANL. NARAC is monitoring the fire location as well as local and forecasted weather.

This response does not appear to require Federal coordination or IMAAC activation at this time, but NARAC would appreciate notification if your agency is performing dispersion modeling for the incident.

Respectfully, NARAC Operations
